1 MAY 1981

MEMORANDUM FOR: Deputy Director for Administration

FROM: Deputy Director of Central Intelligence

SUBJECT: Approval of Recommendations of Inspector General's Report on the Office of Medical Services (OMS)

1. I have approved the three recommendations in Tab G of the Inspector General's April 1981 report on the Office of Medical Services (OMS). Tab G has been forwarded to you. These recommendations require your action.

2. The first recommendation requests that:

25X1 The D/MS and DDS&T ensure that the standards and procedures for assignment of employees and dependents [] are periodically reviewed by Agency, NSA, and, if possible, contractor management to insure both adequacy and uniformity. A previous IG survey in 1977 made essentially the same recommendation, but there is some evidence that such reviews have not been conducted in the depth desired, particularly with regard to NSA. Thorough psychological screening of dependents is clearly desirable.

25X1 I ask that you coordinate with the DDS&T on this recommendation to ensure that a proper review of standards and procedures for assignment of [] personnel takes place. I also ask that you provide me progress reports on this screening process as you see fit.

3. The second and third recommendations request that:

25X1 The D/MS ensure the medical technician assigned to [] is more fully utilized, particularly with regard to CPR, ambulance crew, and First Aid Training.

25X1
